Poland, European ICT powerhouse,
at GITEX 2018 in Dubai

2018-10-11 06:17:21

Polish technology companies show variety and depth at largest technology event in the Middle East.

Next edition of [GITEX Technology Week in Dubai](#) is upon us (14-18 Oct 2018) and this time with stronger than ever participation from ICT companies from Poland. Almost 20 Polish companies decided to participate and network with local UAE business partners – they represent a wide selection of domains incl. augmented reality, smart home and smart city, artificial intelligence, web and app development, fibre-optics, telemedicine, EduTech etc.

Polish economy has been going from strength to strength in recent years and ICT sector is one of the growth engines. The quality of talent pool among developers and engineers in Poland has been the reason for many MNC new inward investments. Moreover Polish companies win a lot of international contracts and participate in competitions on a global scale.

UAE has been increasingly on their radar as the next target in successful international expansion. This year's GITEX participation is enriched with informative seminars to present the companies credentials and capabilities.
